Project Title	Organisation	Department	Primary Applicant	Amount Granted DKK
Children, Youth and Science				
Worlds best City of Robots - makerspace as a learning space	Odense Municipality	Children and Youth Management	Sanne Munk Doll	5.013.076
Makerspaces in Lolland Municipality	Lolland Municipality	Section for School and Daycare	Søren Skovbølling	5.600.030
Engineering at School 2020-2023	Engineer the Future		Chitra Wolf Andreasen	2.178.290
Practitioners' network on technological comprehension	Abalon School of Applied Sciences	Centre for Learning Tools	Søren Knudsen	8.940.000
Kids Island Entrepreneurship Academy - Additional grant following the Covid19 crisis	Kids Island		Nana Christiansen	100.600
Evaluation of science in leisure time	Rambøll Denmark	Rambøll Management Consulting	Lise Nordvig Rasmussen	3.063.688
Workshops Makerspaces 2020	Aarhus University	Department of Communication and Culture	Katrine Holm Karstrup	494.000
Politikens Educational Award 2021-2023	House of Politiken	Politiken Live	Lise Ring	5.100.000
Pilot Study on Denmark's Capacity for Computational Thinking in K12	Aarhus University	CCTD	Ole Sejer Iversen	407.024
Makerspaces	Jammerbugt Municipality	School and Daycare	Helle Norgaard Pedersen	6.306.420
Makerspaces at learning labs in Favrskov Municipality	Favrskov Municipality	Children and School	John Klesner	5.609.340
The MakerWorks in Frederikssund	Frederikssund Municipality	Centre for Children and School	Dorthe Christensen	6.775.000
Svendborg makerspace	Svendborg Municipality	School and Education	Søren Rasmussen	2.046.468
YoungScience - Additional grant following the Covid19 crisis	Youth School Society		Ejnar Bo Pedersen	304.750
Project Makerlab - a gateway to technical vocational education	Svendborg Vocational High School	Tech	Allan Kruse	6.119.000
Boss Ladies vol. 2	Divers Association		(Nina er IKKE længere direktør her) Nina Groes	9.500.000
Evaluation design Makerspaces in primary school	VIA University College	Research Programme for Learning and IT	Lillian Buus	2.999.000
Total				70.556.686
Daylight and Building Component Award				
Daylight Award Winner 2020: Juha Lewiska	Individuals		Juha Lewiska	450.000
Daylight Award Winner 2020: Henry Plummer	Individuals		Henry Plummer	450.000
Total				900.000
Environment and Sustainability				
KR Foundation 2021	KR Foundation		Brian Valbjørn Sørensen	150.000.000
Total				150.000.000
Other Grants				
Developing of outdoor activities for all generations in the village of Ebdrup	Ebdrup Community Centre		Helle Redke	400.000
Children's games from all over the world	Individuals		Louise Banke Kristensen	275.000
VB 1968 Soccer school 2021	VB 1968		Jørgen Franck	40.200
New playground for nature nursery Myretuen	Nature nursery Myretuen		Tina Guldberg Olufsen	170.000
Rhythm - and Toneplace	Ansager Township Developmnet		Lisbet Steen Mortensen	500.000
Outdoor teaching and campsite	Silkeborg Middle School		Erik Poulsen	442.843
New groundbreaking planetary system	The Tycho Brahe Planetarium		Mette Brokso Thygesen	6.050.000
Film production: The Art of Building a Metro	Eddy Media ApS		Christian Vorting	1.200.000
Everyone is entitled to a great outdoor life	YMCA Rinkenæs		Karsten Gram	100.000
New outdoor zone in Fredenik VI's Asylum	Frederik VI's Asylum		Mads Elvius	375.000
The light filled green space that creates well-being for people with dementia	Jalborg University	BUILD - Department of Construction, Towns and Environment	Nanet Mathiasen	2.169.610
Garden of generations. Daylight and fresh air for everybody	Thorsø Pavillion		Peter Dahlggaard	249.000
The Carousel	Morsø Municipality	Technique and Environment	Anne Holm Paludan	1.000.000
Lisbjerg Open Air Arena	The Network School	All Day Teaching in Aarhus	Lone Grosen	3.355.000
Eco-High School - Teaching and Social Activities Outdoors	Risskov High School		Gitte Horsbøl	2.103.570
Elevating Communal Space	The Self-governing Institution Øresund College		Niels Kristian Bjerg	2.808.780
Outdoor kitchen, anglers' jetty, learning centre et cetera	Society for preservation and information of natural and cultural environments in the Danish Forests		Holger Nielsen	450.000
Total				21.689.003
Social Projects Abroad				
Developing digital literacy and digital skills for future jobs in the Czech Republic	Czechitas, z.s.		Lucie Jurystova	7.938.027
Technology across generations (TAG)	Secondary technical school and Secondary vocational school Vyskov, funded.org		Blanka Jagošová	13.083.783
Let's Open the Door for Future	Střední škola obchodní a služeb SČMSD, Žďár nad Sázavou, s.r.o.		Radka Hronková	7.751.232
Centrum - Art Handicrafting Centre	Stredni škola a vyssi odborná škola umelecka a remeslna		Jana Porvichova	11.250.028
Student start-up for the 21st century as a support of independent creative activity of high school youth	Secondary Technical School, Business Academy and Language School, Frydek-Místek		Martin Tobias	2.662.507
Chance for a Change	Hungarian Charity Service of the Order of Malta	Model Programmes	Csaba Hidvegi	13.312.533
Fun4All - Early Childhood Intervention Centre and Playhouse in Budapest - Additional grant	Hungarian Down Association		Károly Kisan	500.000
"The Green Center" - environment-friendly architecture for children	Empowering Children Foundation		Monika Sajkowska	1.500.004
Airstrip	Generado Foundation		Sebastian Cycula	10.875.027
A Chance to Dignity	Lumina Association		Dumitrache Mihaela	500.000
Regional Career Guidance Centres	Rozvojová agentúra BISK n.o.		Andrea Pavlikova	6.534.735
Total				80.937.426
VILFON - Technical and Scientific Research				
Direct extraction of active membrane proteins and complexes for cryo-EM	University of Copenhagen	Department of Plant and Environmental Sciences	Nicolai Johansen	1.906.125
Room-Temperature Generation of Indistinguishable Single Photons	University of Southern Denmark	The Mads Clausen Institute	Shailesh Kumar	1.956.000
Salmonids in hot water: are physiological constraints causing salmonids to die?	Technical University of Denmark	DTU Aqua	Kim Birnie-Gauvin	2.493.250
Data-driven Approaches for enhancing resilience of Multi-Energy systems (DAME)	Technical University of Denmark	Department of Electrical Engineering	Jiawei Wang	2.215.065
Lifetime tracker: using kinetic GPS tags to track animals from birth to death	University of Copenhagen	Natural History Museum of Denmark	Rasmus Havmøller	1.999.609
Electrochemical Hydrogenation of bio-erude (ELHYOs)	Aarhus University	Department of Engineering	Jacopo Catalano	1.776.430
Massive Exploration of the Sequence Dependence of Protein Phase Separation	Technical University of Denmark	DTU Bioengineering	Alexander Buell	1.999.999
ARTIFICIAL OLFACTION: Biological perception, digital encoding, and chemical reproduction of the sense of smell	University of Copenhagen	Department of Plant and Environmental Sciences	Karel Miettinen	1.999.977
GRAZing Incidence X-ray Ptychographic Microscopy - GRAZY	Technical University of Denmark	DTU Energy	Jens Wenzel Andreasen	1.998.487
Study of electromagnetic communication between chiral drug molecules and its receptor in water	Technical University of Denmark	DTU Chemical Engineering	Michael Bache	1.999.224
Framework grant for Villum Family and Onboarding Support and establishing of The Mobility Foundation	The Mobility Foundation			2.000.000
One-step synthesis of green ammonia from renewables	Technical University of Denmark	DTU Energy	Ming Chen	1.762.801
Catch me if you conjugate. Plasmid recovery from complex ecosystems using secreted pilus machinery as a hook.	University of Copenhagen	Department of Biology	Joseph Neme	1.995.008
Villum family and onboarding	The Mobility Foundation		Josephine Lethenborg	1.000.000
Reburning of waste plastics for NOx reduction	Technical University of Denmark	DTU Chemical Engineering	Hao Wu	1.991.718
NanoTrain: Programmable colloidal nanomachine	University of Southern Denmark	The Mads Clausen Institute	Jack Futowski	1.984.900
Effective, efficient and robust clustering models for molecular dynamics simulations	Aarhus University	Department of Computer Science	Ira Assent	2.999.854
Data Science meets Microbial Dark Matter	Aalborg University	Department of Computer Science	Kajsa Høse	2.999.714
Privacy Lost: How regional differences in power and politics have shaped worldwide digital surveillance	University of Copenhagen	Department of Computer Science (DIKU)	Jakob Grue Simonsen	2.966.516

Deep Learning and Remote Sensing for Unlocking Global Ecosystem Resource Dynamics	University of Copenhagen	Department of Computer Science (DIKU)	Rasmus Fensholt	14,911,883
Light-AI for Cognitive Power Electronics	Aalborg University	Department of Energy Technology	Huai Wang	2,996,278
CLAIRE: Controlling water in an urban environment	Aalborg University	Department of Computer Science	Kim Guldstrand Larsen	2,949,763
Searchlight: Integrated Optical Neural Networks for Information Retrieval	Technical University of Denmark	DTU Photonics	Hao Hu	3,000,000
Nation-scale social networks	Technical University of Denmark	DTU Compute	Sune Lehmann	19,658,579
Developing a Chemically Self-Sustaining Martian Society	Aarhus University	Department of Chemistry	Kim Daasbjerg	1,912,486
How do mother plants protect their seedlings?	University of Copenhagen	Department of Geosciences and Natural Resource Management	Chatchai Kosawang	1,997,880
Polymer recycling via monomer reuse	Aarhus University	Department of Chemistry	Alexander Zelikin	1,980,735
Sustainable Synthesis of Advanced Organic Molecules by Asymmetric Catalysis and C-H Functionalization	Technical University of Denmark	DTU Department of Chemistry	Soren Kramer	1,995,404
Villum family and onboarding	The Mobility Foundation		Stine Kunnerup Laursen	1,000,000
The cellular ultrastructure of Asgard archaea - the ancestors of the eukaryotic cell	Aarhus University	Department of Biology	Kasper Urup Kjeldsen	1,996,114
Using rock surface luminescence dating of stone tools to track early human migration throughout the world	Technical University of Denmark	DTU Physics	Eike F. Rader	1,860,519
Ultrasonic evolution of microalgae: A Darwinian approach for biofuel production	Technical University of Denmark	DTU Physics	Masumilano Rossi	1,974,551
Transfer of biochemical defence between plant species	Aarhus University	Department of Agroecology	Mette Vestergaard	1,986,855
A Novel Voltage-sensing Nano-device based on Piezoelectric Coupling in Lipid Membranes	University of Southern Denmark	Department of Physics, Chemistry and Pharmacy	Hanzhi Khandela	2,000,000
Villum Centre of Excellence for the Mathematics of Quantum Theory (QMATH) - Extension	University of Copenhagen		Jan Philip Solovej	29,998,971
Mid-infrared photoacoustic microscopy: listening to biological molecules	Technical University of Denmark	DTU Photonics	Christos Markos	1,997,935
Remediation of marine dead zones by enhancing microbial sulfide oxidation using electrodes (REDOX)	Technical University of Denmark	DTU Environment	Sieffan Trapp	1,999,119
How hot are plasmonic hotspots? Probing the chemical reactivity of plasmonic nanoparticles with electrons	Technical University of Denmark	DTU Nanolab	Shima Kadhodazadeh	1,999,382
ViralX - Determinants of viral crossing of species barriers	University of Copenhagen	Department of Plant and Environmental Sciences	Alexander Byth Carstens	1,992,576
Lignin mimetics - Polymer materials derived from tree that will degrade at land and in the sea	University of Copenhagen	Department of Chemistry	Fredrik Diness	1,998,996
Enable bioelectro-synthesis of chiral amines (EnBioAm)	Technical University of Denmark	DTU Department of Chemistry	Xinxin Xiao	1,999,989
AUGMENT: Targeted upregulation of protein expression using artificial small RNA guides.	Aarhus University	Department of Molecular Biology and Genetics	Soren Lykke-Andersen	1,998,897
Opening the black box: imaging nanoparticle transport in porous media	Technical University of Denmark	DTU Physics	Henning Osholm Sorensen	1,949,074
3D printing of high-performance continuous fiber composites (CFC) for repair of wind turbine blades (PrintRepair)	Technical University of Denmark	Department of Wind Energy	Ali Shahidi	1,972,855
Enabling User-Accountable Mechanisms in Decision Systems	IT University	Department of Computer Science	Rosario Giustolisi	1,988,652
Magnetic switching near absolute zero	Technical University of Denmark	DTU Physics	Rasmus Toft-Petersen	1,838,249
Printing nature to study nature- artificial 3D-leaves for ecologically relevant studies of bacterial biofilm communities	University of Copenhagen	Department of Biology	Mette Burmelle	1,983,509
Challenging the Current Paradigm for Planet Formation	University of Copenhagen	Niels Bohr Institute	Tobias Heinemann	1,994,436
The singing bird brain: an out-of-body experiment	University of Southern Denmark	Department of Biology	Inis Adam	1,982,600
Metal vapors in catalyst synthesis - a superior route to advanced materials?	Technical University of Denmark	DTU Energy	Benedikt Axel Brandes	1,195,677
Fusion of hydrology and geophysics - for a description of surface- and groundwater dynamics in a changing climate	Aarhus University	Department of Geoscience	Lene Meldgaard Madsen	2,342,800
Building-LCA of SCALES	Aalborg University	BUILD - Department of Construction, Towns and Environment	Freja Nygaard Rasmussen	2,211,552
Coastal erosion hotspots - where and why?	University of Copenhagen	Department of Geosciences and Natural Resource Management	Drude Fritzbøger Christensen	2,423,127
Villum family and onboarding	The Mobility Foundation		Vivian Tos Lindgaard	1,000,000
Insane in the membrane: how to avoid crowding of the Escherichia coli inner membrane?	University of Copenhagen	Department of Biology	Jakob Frimodt-Møller	1,999,608
Virus free high yield bacteria for food ingredients - Electrified ceramic membrane reactors an answer?	Technical University of Denmark	DTU Energy	Bhaskar Reddy Sudreddy	1,988,611
Electronic Tunneling as a Tool for Understanding Electrocatalysts Activity & Selectivity	Technical University of Denmark	DTU Physics	Brian Seger	1,998,508
ClimateCov: Reducing ruminant methane emission by killing methanogenic archaea with viruses	University of Copenhagen	Department of Food Science (FOOD)	Dennis Sandris Nielsen	1,998,965
Cosmic Beacons	University of Copenhagen	Niels Bohr Institute	Adriano Agnello	1,991,128
Does Charge Movement in Minerals Drive Landscape Evolution? (CRACK)	Technical University of Denmark	DTU Physics	Mayank Jain	1,998,788
Hunting for totally new bacterial natural products	Technical University of Denmark	DTU Biosustain	Xinglin Jiang	1,894,671
Mycoviruses: a hitherto unknown member of the soil food web	Aarhus University	Department of Environmental Science	Rumakanta Sapkota	1,999,863
Engineering biological memory in bacteria	University of Copenhagen	Department of Biology	Anders Lobner-Olesen	1,999,768
Surface NMR with long excitation pulses - technicality or game changer?	Aarhus University	Department of Engineering	Jakob Juul Larsen	1,998,266
Engineering bacteria for self-sabotage	Technical University of Denmark	DTU National Food Institute	Anurag Kumar Sinha	1,944,609
Tiny dragons (Kinorhyncha) answering big questions - insights into metazoan segmentation	University of Copenhagen	Department of Biology	Maria Herranz Matesanz	1,901,557
Towards a Thinking X-ray Microscope: Deep Learning to Predict Fluorescence Labels of Cellular Organelles in SXT	University of Southern Denmark	Department of Biochemistry and Molecular Biology	Daniel Wüstner	1,928,550
Methane, a sign of life - what drives its dynamics on Mars?	Aarhus University	Department of Biology	Kai Frister	1,995,290
Villum family and onboarding	The Mobility Foundation		Vibeke Tyrre Pedersen	1,000,000
Villum family and onboarding	The Mobility Foundation		Vibeke Tyrre Pedersen	1,000,000
Villum family and onboarding	The Mobility Foundation		Vivian Tos Lindgaard	1,000,000
Additional Grant - IceFlow	University of Copenhagen	Niels Bohr Institute	Dorthe Dahl-Jensen	1,380,000
A paradigm shift in carbohydrate chemistry: sterecontrolled glycosylation	Technical University of Denmark	DTU Department of Chemistry	Mads Clausen	1,999,865
ATTKA - Adaptive Tools for Technical Knowledge Acquisition	IT University	Department of Computer Science	Nanna Inie	2,164,063
6D ceramics	Technical University of Denmark	DTU Energy	Astri Bjørnetun Haugen	5,996,330
Drought-induced tipping points in ecosystem functioning: Coupled insights from Earth Observation, DVMs and Field Ecology	University of Copenhagen	Department of Geosciences and Natural Resource Management	Stephanie Horion	5,985,505
The Effects of Ice Nucleation Proteins on Arctic Clouds (ICARUS)	Aarhus University	Department of Biology	Tina Sant-Temkiv	5,998,619
Bioengineered and compartmentalised bioproduction in photosynthetic microalgae	University of Southern Denmark	SDU Biotechnology	Michele Fabris	7,997,100
Bias Explained: Pushing Algorithmic Fairness with Models and Experiments	IT University	Department of Computer Science	Roberta Sinatra	5,998,067
Quantum Networks with Nonlinear Photonic Devices (QNET-NODES)	Technical University of Denmark	DTU Photonics	Mikkel Heuck	5,996,592
Printed Bio-inspired Hydrogel based Substrate with Adhesiveness & Electrical Conductivity for Sustainable Electronics	Aarhus University	Department of Engineering	Shweta Agarwala	5,998,215
Digital volume correlation - unraveling Fatigue in heterogeneous engineering materials (Frontier)	Technical University of Denmark	DTU Civil Engineering	Alexander Michel	5,999,536
Indoor Chemistry and Air Quality	Aarhus University	Department of Engineering	Kasper Vira Kristensen	5,998,561
Controversial Data and Algorithms (CoDA): Digital solutions to crises of public trust	Roskilde University	Department of Communication and Humanities	Sine Norholm Just	67,000,000
Bridging social neuroscience and social data science: uncovering interaction and brain mechanisms in social networks	Technical University of Denmark	DTU Compute	Ivana Konvalinka	5,994,860
Adaptive Crawling with a Soft Skin: A Snake-Inspired Soft Robot for Reclinant Locomotion	University of Southern Denmark	Maersk Mc-Kinney Møller Institute	Ahmad Rafsanjani	5,998,400
DECODENSE: Mean-Field Density Matrix Decompositions	Technical University of Denmark	DTU Department of Chemistry	Janus Enksen	7,999,368
Quantum Metasurface: A Novel Platform for Generating and Manipulating Single Photons	University of Southern Denmark	The Mads Clausen Institute	Pei Ding	5,996,100
Understanding the First Billion Years	University of Copenhagen	Niels Bohr Institute	Charlotte Mason	7,999,725
Machine learning-guided design of materials for low-temperature catalysis	Aarhus University	Department of Physics and Astronomy	Me Andersen	7,997,528
Trustworthy Quantum Technologies	University of Copenhagen	Department of Mathematics	Laura Mancinska	5,988,977
YIP+ Unravelling the resilience of Arctic marine mammals to future climate change using palaeo-archives	University of Copenhagen	Globe Institute	Eline Lorenzen	3,999,810
YIP+ Physics of diffusive auxin transport in plant cell networks (YIP+)	Technical University of Denmark	DTU Physics	Kaare H. Jensen	3,998,620
Physics of Quantum Information Applications	University of Copenhagen	Niels Bohr Institute	Morten Kjergaard	7,999,735
YIP+The Hidden Cosmos: Bringing to light the agents of star formation and heavy element production in the early Universe	Technical University of Denmark	DTU Space	Georgios Magdis	3,995,704
YIP+ Neutron stars rattling, shining, and sparking	University of Copenhagen	Niels Bohr Institute	Irene Tamborra	3,999,029
YIP+ Paving the Way for Biosignature Detections by Characterizing Small Exoplanets	Technical University of Denmark	DTU Space	Lars A. Buchhave	3,999,975
Efficient Recompilations for Changeful Problems	Technical University of Denmark	DTU Compute	Eva Rottenberg	5,996,492
The Villum Kann Rasmussen Annual Award 2021 - Institution share	Technical University of Denmark	DTU Physics	Ib Chorkendorff	4,500,000
The Villum Kann Rasmussen Annual Award 2021 - personal share	Individuals		Ib Chorkendorff	500,000
The Villum Kann Rasmussen Annual Award 2021 - personal share	Individuals		Jens-Christian Svenning	500,000
Spinning Around: New generation of Spin-Information Transistors (SANSIT)	Technical University of Denmark	DTU Energy	Felix Trier	7,995,859
The Villum Kann Rasmussen Annual Award 2021 - Institution share	Aarhus University	Department of Biology	Jens-Christian Svenning	4,500,000
